

MOUSTAFA KADER

JUNIOR FULL STACK DEVELOPER

Beirut, Lebanon | +961 71 246 830 | moustafa.kader.dev@example.com
Mostafa | github.com/moustafa-kader | moustafakader.dev

REACT & NEXT.JS DEVELOPMENT | REST API INTEGRATION | RESPONSIVE, USER-FOCUSED PRODUCTS

CAREER OBJECTIVE

To contribute as a Junior Full Stack Developer by building reliable, responsive web applications and growing within a collaborative engineering team.

PROFILE

Junior Full Stack Developer with practical experience building responsive, API-driven applications using React.js, Next.js, TypeScript, Tailwind CSS, Express.js, and MongoDB. Skilled in reusable component development, backend integration, debugging, and Git/GitHub collaboration, with a strong focus on clean code and user experience.

KEY COMPETENCIES

Full Stack Web Development	Frontend Development	Backend Integration	RESTful API Integration
Responsive UI Development	Component-Based Architecture	Database Fundamentals	Git & GitHub Workflows
Debugging & Troubleshooting	Clean Code Practices	Agile Team Collaboration	Technical Problem Solving

PROFESSIONAL EXPERIENCE

Junior Web Development | CedarStack Technologies, Beirut, Lebanon 06/2025 – 08/2025

- Converted approved Figma designs into 9 responsive React and TypeScript screens, ensuring consistent behavior across desktop and mobile layouts.
- Integrated authentication and profile-management endpoints with the frontend, helping complete two client-facing feature releases before the internal demo deadline.
- Resolved 18 interface, validation, and responsiveness issues identified during testing, improving usability and reducing repeat bug reports during final review.
- Documented reusable components and Git branch conventions, making it easier for the internship team to contribute consistently to the shared codebase.

Freelance Web Developer | Independent Projects, Remote 01/2025 – Present

- Designed and launched a responsive booking website for a local tutoring center, replacing manual WhatsApp scheduling with a structured inquiry and appointment flow.
- Built a lightweight admin dashboard that allowed the client to update services, availability, and announcements without editing source code.
- Improved mobile performance by optimizing images, reducing unnecessary scripts, and simplifying page structure before launch.
- Translated client feedback into prioritized updates and delivered all agreed features within the original project timeline.

SELECTED PROJECTS

SkillBridge – Peer Learning Platform | Next.js, TypeScript, Tailwind CSS, Express.js, MongoDB

- Built a full-stack platform that lets students offer peer-learning sessions, browse available topics, and request mentoring support through a searchable interface.
- Implemented user registration, role-based access, session requests, and profile management using JWT authentication and REST APIs.
- Structured reusable UI components and API services to keep the codebase organized and easier to extend.

TaskFlow – Team Productivity Dashboard | React.js, Redux Toolkit, Express.js, PostgreSQL

- Developed a collaborative task dashboard with project boards, due dates, priority labels, and progress tracking for small student teams.
- Created API-driven state management using Redux Toolkit and connected the platform to a PostgreSQL database.
- Added filters and summary widgets that helped users quickly identify overdue and high-priority tasks.

EDUCATION

Bachelor of Science in Computer Science | Lebanese University Expected 2027

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Web Development, Software Engineering

TECHNICAL TOOLKIT

Computer : JavaScript, TypeScript, Python, C++ | Frontend: React.js, Next.js, Tailwind CSS, Redux Toolkit | Backend & Data: Node.js, Express.js, MongoDB, PostgreSQL, REST APIs | Tools: Git, GitHub, Jira, Postman, Figma
Languages : English | Arabic
